

Draft Technical Support Document

TABLE OF CONTENTS

Disclaimer	ii
Acknowledgments	iii
Glossary of Terms	vii
1 Characterization of the Ozone Weekend Effect in California	
1.1 Trends in Ambient Ozone Concentrations in the South Coast Air Basin	1.1-1
1.2 The Weekend Ozone Effect during Ozone-Conducive Days in the South Coast Air Basin	1.2-1
1.3 Analysis of the Ozone Weekend Effect in the San Joaquin Valley Air Basin, Including Selected Summaries for Other Air Basins	1.3-1
1.4 The Weekday-Weekend Behavior of Ambient Ozone Concentrations in California	1.4-1
2 Analysis of Variations in Ozone and Ozone Precursors	
2.1 Diurnal Patterns of Ozone & Precursors in the South Coast Air Basin	2.1-1
2.2 Ozone Precursor Trends in the South Coast Air Basin	2.2-1
2.3 Analysis of VOC to NO _x Ratios in the South Coast Air Basin	2.3-1
2.4 Weekday-Weekend Differences in Hydrocarbon Reactivity	2.4-1
2.5 Ozone Carryover and Day-of-Week Phenomena Based on Data from Ozonesondes and the ARCO Tower During SCOS97	2.5-1
3 Analysis of Variations in Particulate Matter	
3.1 Day-of-Week Patterns of Particulate Matter and its Species at Selected Sites	3.1-1

4 Analysis of Variations in Toxic Air Contaminants

- 4.1 Day-of-Week Patterns for Six High-Risk Toxic Air Contaminants 4.1-1

5 Analysis of Variations in Vehicular Activity Patterns

- 5.1 Day-of-Week Patterns of Heavy-Duty and Non-Heavy-Duty Vehicle Activity at Weigh-in-Motion (WIM) Stations Relevant to the South Coast Air Basin During the Summer of 1997 5.1-1
- 5.2 Analysis of Hourly Freeway Activity by Day-of-Week in the South Coast Air Basin During the Summer of 1997 5.2-1
- 5.3 Comparisons Between Vehicle Activity and Ambient Air Quality Data by Day-of-Week 5.3-1

6 Photochemical Simulation Models and the Ozone Weekend Effect

- 6.1 Technical Issues for Performance Analyses When Using Photochemical Simulation Models to Study the Causes of the Ozone Weekend Effect 6.1-1

7 Recommendations

- 7.1 Recommendations for Further Research 7.1-1

8 Overview of Current Non-ARB Research Efforts

- 8.1 Weekend/Weekday Ozone Observations in the South Coast Air Basin (DRI/STI) 8.1-1
- 8.2 Data Analysis for a Better Understanding of the Weekday/Weekend O₃ and PM Differences (AER) 8.2-1
- 8.3 Proximate Modeling of Weekday versus Weekend Ozone (ENVIRON) 8.3-1
- 8.4 Data Analysis Complementing Proximate Modeling of Weekday/Weekend Ozone Differences in Southern California (ENVAIR) 8.4-1
- 8.5 Collection and Analysis of Weekend/Weekday Activity Data in the South Coast Air Basin (STI) 8.5-1
- 8.6 Collection and Analysis of Weekend/Weekday Activity Data in the South Coast Air Basin (STI) 8.6-1

8.7	Miscellaneous Data Collection Efforts in the South Coast Air Basin Supporting Weekday/Weekend Activity	8.7-1
8.8	Analysis of Weekday/Weekend Differences in Ambient Particulate Nitrate Concentrations and Formation in Southern California	8.8-1

9 Relevant Literature

9.1	Compendium of Weekend Effect Literature	9.1-1
-----	---	-------

Appendices

A	Envair comments – Review of Recent Publications Relating to the Ozone Weekend Effect in California	A-1
B	Air Improvement Resource, Inc. comments	B-1
C	Response of CARB Staff to Major Comments Received on Draft Report “The Ozone Weekend Effect in California”	C-1
D	University of California Peer Review Comments	D-1
